**Dr. Massad** is in private practice in Tulsa, Oklahoma as a General Dentist since July, 1st 1975 directly after graduating from Loyola University School of Dentistry Chicago, Illinois. He joined several dental school programs as a preceptor early in his career with both Oklahoma University and Oral Roberts University Dental programs. He was a member of the Oklahoma Board of Dentistry where he rose to become one of the youngest board presidents and co-authored the Oklahoma Code of Ethics document. He is a Life member of the American Dental Association, a Fellow of both the American and the International College of Dentists, a Regent/Fellow of the International Academy for Dental Facial Esthetics, a member of the American Society for Dental Aesthetics and is an honorary member of the American College of Prosthodontics. He has authored numerous publications in the Journal of Prosthetic Dentistry and in 2009 with 2 other authors received the best clinical article of the year. He has been honored by the Chicago Dental Society receiving the Gordon Christensen Award for Outstanding lecturer of the year. He holds active positions as an Associate Professor, Department of Prosthodontics, University of Tennessee Health Center, Memphis, Tennessee, School of Dentistry, Memphis Adjunct Associate Professor, Department of Prosthodontics and Operative Dentistry, Tufts University School of Dental Medicine, Boston Adjunct Associate Professor, Department of Comprehensive Dentistry, University of Texas Health Science Center, School of Dentistry, San Antonio Adjunct Associate Professor, Department of Restorative Dentistry, Loma Linda University School of Dentistry. Loma Linda, CA. He has previously held appointments at the Oklahoma State University College of Osteopathic Medicine Oklahoma, and past Director of Removable Prosthodontics at the Scottsdale Center for Dentistry in Arizona and from 1992 to 2003 was an associate faculty at the Pankey Institute in Florida.

Dr. Joseph Massad has lectured in more than 12 countries and has presented more than 600 presentations to dental associations around the globe. He is proud to begin each new presentation by thanking his teachers, Drs. Ken Rudd, Tom Shipmon, L D Pankey, John Frush and Frank Schiesser for their tutoring and encouragement to continue improving the lives of the edentulous patients.

**Dr. Joe Massad -- Complete and Implant Retained Overdentures-** This presentation will cover the most important aspects of complete removable dentures reloaded to include implant retained over-dentures and why unsuccessful cases are generally a result of an inadequate assessment and poor esthetic analysis thereby leading to a weak treatment plan. Helpful tips to eliminate this situation will be detailed. Making the most desirable impressions both internal and external for edentulous, dentate for immediate and implant overdentures will bring the audience up to current methods. See how predictable fit and esthetics are obtained in the immediate denture arena even when implants are placed the day of extractions. The number two problem plaguing removables is an inaccurate jaw registration. A precise jaw recording will be described in detail, for complete, partial, immediate and overdenture procedures. To sum it all up Dr. Massad will describe in detail several implant overdenture cases utilizing all of the above methods.

**Shawn M. Murray CDT, LD – The Front Office – Care for All Your Office Files**

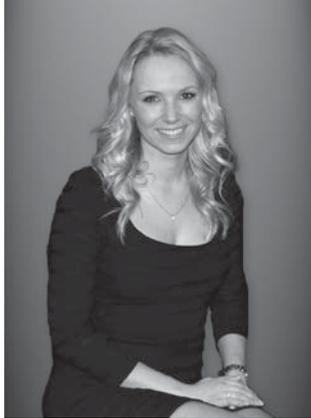

I have been a Licensed Denturist for 26 years and a Certified Dental Laboratory Technician for 36 years, my specialty is complete dentures. I have diplomas from Bates Vocational College, the Oregon Denturist College and George Brown College. I have been the president of the Oregon Denturist Association, and National Denturist Association. I have also held the office of Treasurer of both Associations and still a board member of OSDA. I have served on the Board of Oregon Health Agency for a total of 16 years and chaired that Board for 16 years. I strive to improve my knowledge of the dental profession by many hours of continuing education in the dental and education fields. I am guest lecturing at several State Denturist Associations. I am an instructor at the American Denturist College.

**Dr. Jae Hong -- Anatomy of All on X** (*how to determine the position of implants, complications, Indications and contraindications for fixed hybrid dentures and etc..*)

Dr Jae Hong is a long-time resident of the Pacific Northwest. He completed dental school and received his D.D.S. Degree at the University of Washington in 1997. After one year externship at Emory University in Atlanta, he returned to Seattle to complete his residency and certification in Oral and Maxillofacial Surgery at University of Washington where he graduated first in his class.

Dr. Hong is a board certified diplomate in the American Board of Oral and Maxillofacial Surgeons and president of the Snohomish County Dental Society. He was voted as Top Dentist by Seattle Metropolitan Magazine for the past eight years. He is a member of the American Dental Association, American Association of Oral and Maxillofacial Surgeons, and Washington State Dental Association. His main interest is in providing life changing reconstructive treatments to patients using the latest technological advancements in dental implantology.

**Ania Mazewska, MDT – Implant Supported Overdentures – Conus Implant, Sponsored by Dentsply**

Ms. Ania Mazewska, BA, MDT, graduated from Medical University of Gdansk in Gdansk, Poland in 2006 with her degree in Dental Technology. Ms. Mazewska began her career as a laboratory technician in 2006 and worked in all departments of a full service laboratory. She joined the company in 2011 as the District Manager, Clinical channel for the Seattle North territory, and became the Technical Advisor in 2015.

In this role she lectures throughout the United States and is responsible for employee training, product development, problem solving, and case design. She also actively assists clinicians and laboratories with difficult cases and surgeons with guided surgery, case planning, procedures, and techniques for best surgical and restorative outcome for their patients.

**John Marshall - Results Driven** was created because we believe that your business is capable of ‘more’. More revenue. More profits. More growth. Maybe – more free time. But you struggle to get there and stay there. For over a decade, John Marshall’s company has trained clients in over 30 industries to get results. Period. You could say, their structured and proven business training program is, in every sense of the word, Results Driven.

John started his career with Procter & Gamble in sales and marketing. He left P&G, to pursue his bucket list goal of travelling internationally. He talked with entrepreneurs about their struggles and these conversations planted the seed to start his company.

**Eric D. Kukucka, DD “Ivoclar Digital” Workflow for Digital Denture Excellence...Analog, Digital or Both?”** -- This lecture covers key components for the fabrication of a premium denture utilizing Ivoclar’s Digital Denture and Digital Denture Professional processes. It includes a comprehensive look at both the clinical and laboratory innovative workflows as well as unique diagnostic instrumentation, equipment, and materials.

Eric D. Kukucka, DD is President of The Denture Center, a quickly growing network of denture clinics in Ontario Canada with locations in Windsor, Leamington, Waterloo, Fergus, and Oakville Ontario. Eric is a 2010 graduate of George Brown College of Applied Arts & Technology with Dean’s List Honours and recognized as Valedictorian of the Centre for Health Sciences. Today, Eric is a successful practicing dentist and emergent entrepreneur as well as a respected key opinion leader and consultant for Ivoclar Vivadent, Inc. and Nobel Biocare. As a prominent sales strategist and advocate for marketing best practices, Eric lectures extensively in North America as he strives to build great relationships within the dental community.
